## Clinical and Academic Experience

During my work as a demonstrator and as an assistant lecturer, I gained experience in performing the following activities:

- Handling and trimming of pathology laboratory specimens.
- Learning diagnostic principles.
- Assisting in academic and practical teaching of the pathologic basis of diseases to Medical students, Pharmacy and Clinical Pharmacy students and Dental Medicine students.
- Participating in examination and reporting of surgical biopsies.
- Participating in different presentations in the weekly scientific meetings at our department.
- Assisting in collection of slide library for postgraduate students in the department.
- Helping in the research program held at our department with colleagues and professors.
- Helping in the achievement of goals of the residency program of training along the 3 years of residency.

During my work as a Rheumatology and Rehabilitation resident, I learned:

- Examination of patients with different rheumatologic diseases.
- Helping in diagnosis and follow up of rheumatologic diseases.
- Helping in planning for rehabilitation programs which include pre and post-operative regimens.
- Helping in assessing and planning for rehabilitation programs for patients with various neurologic conditions (e.g.: cerebral palsy, brachial plexus injuries, hemiplegia, etc.)

During my Internship year, I achieved:

- Rotations every 2 months between different specialties: General Surgery, trauma unit, Gynecology & Obstetrics, Pediatrics, orthopedic, ophthalmic surgery, ENT surgery, cardiothoracic surgery, internal medicine.
- Basic training in different branches of medicine.
